WASHINGTON, Oct. 26. -Americans are putting well over \$1 billion a year into coin-operated machines to buy cigarets and cigars, the Tobacco Institute noted today in its Tobacco News.

Tobacco products are by far the biggest selling items in the field of automatic merchandising, averaging 38 to 40 percent in recent years, it said. Automatic machines dispense about 15 percent of all cigarets sold in the country. the Institute stated.

Second most popular products sold through vending machines are soft drinks with sales of \$450 million last year. Candy sales: hit \$225 million in machine sales.

MIAMI HERALD Miami, Florida October 30, 1960

Machine Puffs: Just 15 Per Cent

WASHINGTON — (UPI) In spite of its presence everywhere, the cigaret vending machine still sells only 15 per cent of the cigarets smoked in the United States.

But that runs to more than \$1 billion and in the past 14 companies produced 95,000 new cigaret vending machines worth \$27.6 million, according to the Tobacco Institute.

But carton sales in super-markets and tobacco shops plus single pack sales in thousands of outlets still far outnumber the machine sales.

Incidentally, the cigaret vending machine is a lot older than most folks probably think. It was introduced way back in 1888 on the platforms of New York elevated railway
